## SUMMARY:

- Enthusiastic computer science student seeking an environment that is customer-centered and encourages collaboration, critical thinking, and problem-solving. I am eager to learn, self-motivated, passionate about software development, team-oriented, and highly organized.
- 

## Experience:

- **Cognizant: Missoula, MT** May 2024 - August 2024
    - Software Engineering Intern
      - Learned Salesforce development using Apex and Salesforce Object Query Language.
      - Presented efficient code in code reviews to senior software engineers.
      - Collaborated and presented with colleagues for multiple consulting projects.
      - Utilized strong problem-solving and critical-thinking skills.
      - Received positive feedback from peer evaluations.
  - **Computer Science Department Research at UofM: Missoula, MT** May 2023 – Currently
    - Research Assistant
      - Conducted research to aid in wildfire management and firefighter safety.
      - Implemented landscape generation using Python, Unreal Engine, and Blender.
      - Utilized real-world data for landscape generation.
      - Maintained open communication and collaboration with colleagues and supervisors.
      - Presented my research clearly and efficiently to fellow colleagues.
      - Co-authored an academic paper.
  - **Pane'n the Glass Window Cleaning: Kalispell, MT** May 2018 – July 2022
    - Team Lead
      - Led teams of up to five staff members on projects.
      - Delegated responsibilities among staff.
      - Collaborated with clients and team members to provide quality service.
      - Trained new coworkers and oriented them to the job.
- 

## Education

- **University of Montana (GPA 4.0)** January 2022 – December 2024
  - Obtaining a bachelor's degree in computer science with a concentration in data science.
  - Will begin my final semester in the Fall of 2024.
  - Experience in Python, Java, SQL, Typescript, HTML, and CSS.
